## Biozar® Original is a unique cocktail where ancient knowledge comes together.

Our diet has changed enormously in the last 40 years. Fortunately, a mentality shift is underway. We pay more attention to whether our fresh vegetables, fruit, bread and meat are organic. We read labels better, do more sport and treat our bodies more consciously

Medicines as we know them today did not exist in the Middle Ages. Plants and herbs have been used in various forms as dietary supplements. This knowledge has been built up over time and passed on from generation to generation. This ancient knowledge has been preserved and written down in several pharmacopoeias<sup>1</sup>.

In Biozar® Original different plants, herbs and mosses from different parts of the world have been combined to support the immune system<sup>2</sup>. The herbs, plants and Irish moss are 100% natural. The secret of Biozar® Original lies not so much in the ingredients, but rather in the way they are composed and in the fermentation process that precedes them. Biozar® Original contains, among other things, fennel (*Foeniculum vulgare*), maca (*Lipidium perivanum chacon*), red algae/seaweed (*Chondrus crispus*) and pepper berries (*Schisandra chinensis*). Fennel has been considered a healthy

vegetable/spice since ancient times. Trans-anethole and fenchone are particularly important. Another ingredient in fennel are the so-called flavonoids. Flavonoids are antioxidants. Fennel is also rich in potassium, calcium, iron and beta-carotene (provitamin A).

Maca is a root vegetable that grows high in the Andes. It is known for its high quality nutrients. Important bioactive components of maca (besides essential nutrients and fiber) are phytosterols, lignans, (aromatic) glucosinolates, isothiocyanates and unique macaenes, macamides and maca alkaloids.<sup>4</sup>

The red algae/seaweed comes from the Atlantic Ocean. The pepper berry is one of the oldest medicinal plants in Asia.

Biozar® Original is naturally rich in iodine. A teaspoon (3ml) contains 200% RI<sup>3</sup> for an adult. Among other things, iodine is good for memory, concentration and keeps the mind clear. In addition, it activates the natural energy in the body, supports the thyroid gland and has a positive influence on the functioning of the nervous system

Biozar® Original is gluten-free and contains no flavor enhancers or colorings.

1 A drug book is an official manual that describes, among other things, the appearance and properties of a substance.
